**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Regarding Claim 1, in Lines 2-3 and 8 it is unclear what is meant by "a screw formed" and "a screw engaged". Is applicant referring to screw threads or a screw being within the cap?
4. Regarding Claim 1, in Lines 5-7 it is unclear how the reverse moving means can descend with respect to a portion of cap 2 when it is connected to a portion of cap 2. Portion 4 is part of the nut but also part of the cap which goes an opposite direction of reverse screw rod 5. It is unclear what applicant is claiming.
5. Regarding Claim 1, in Line 11 it is unclear how the display is in the nut.
